

IDEAL The global leader in high-end Spray gun

Established in 1996, AUARITA specializes in the R&D and production of spray gun and oil-free air compressor. AUARITA main products: spray gun for automobiles, spray gun for furniture, spray gun for architectural decoration, oil-free air compressor, spray tools, pneumatic tools, etc., all the products have the certification of CE.

AUARITA product positioning: High quality, professional level market.

AUARITA strengths:

- 1、25 years inheritance of technology, ensure high quality and stability.
- 2、New product development capabilities remain leading position for long time.
- 3、Technology innovation, application of new processing, improve the user experience.

AUARITA mission: to meet the needs of users in the field of spraying.

After 25 years of development, now AUARITA company covers an area of 30,000 square meters, construction area of 50,000 square meters, 500 employees, annual production capacity three million pieces.

AUARITA is the China "National High-Tech Enterprise", which represents AUARITA's technology leadership position in the Chinese manufacturing industry. AUARITA build cooperation with Chinese famous university and set up a "Technology R&D Center", leading the industry development in technological innovation.

More than 100 patents have been obtained.

AUARITA implements "TPS" production mode to ensure the high-efficiency quality control, having the certification of ISO9001, ISO14001, OHSAS18001. All the core parts of AUARITA spray gun are produced by high precision "CNC" machining center to ensure the superiority and durability of product quality.

AUARITA brand was awarded the China provincial level "Top Export Brand" in 2015, which represents that AUARITA brand occupies an important position in China's export markets. AUARITA brand has been registered in more than 60 countries worldwide, enjoys high popularity and reputation in the world.

AUARITA aspires to be the global leader in high-end spray gun.

Auarita The global leader in high-end Spray gun

The certificate of China
"National High-Tech enterprise"

The certificate of Chinese provincial
"Top Export Brand"

ISO9001

ISO14001

OHSAS18001

CE

Modernized and professional manufacturing system ensures the top quality of each spray gun.

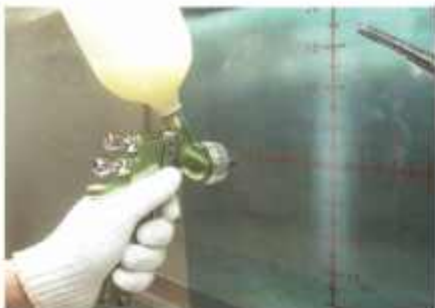

Large "CNC" machining center
The using performance is determined by the machined concentricity of core parts.
The core parts of AUARITA spray guns are machined in one time, ensuring the great concentricity. The accurately machined gun body makes the durable quality.

Nozzle precision analysis

Equipment for air cap laser drilling

Manual testing for atomization performance

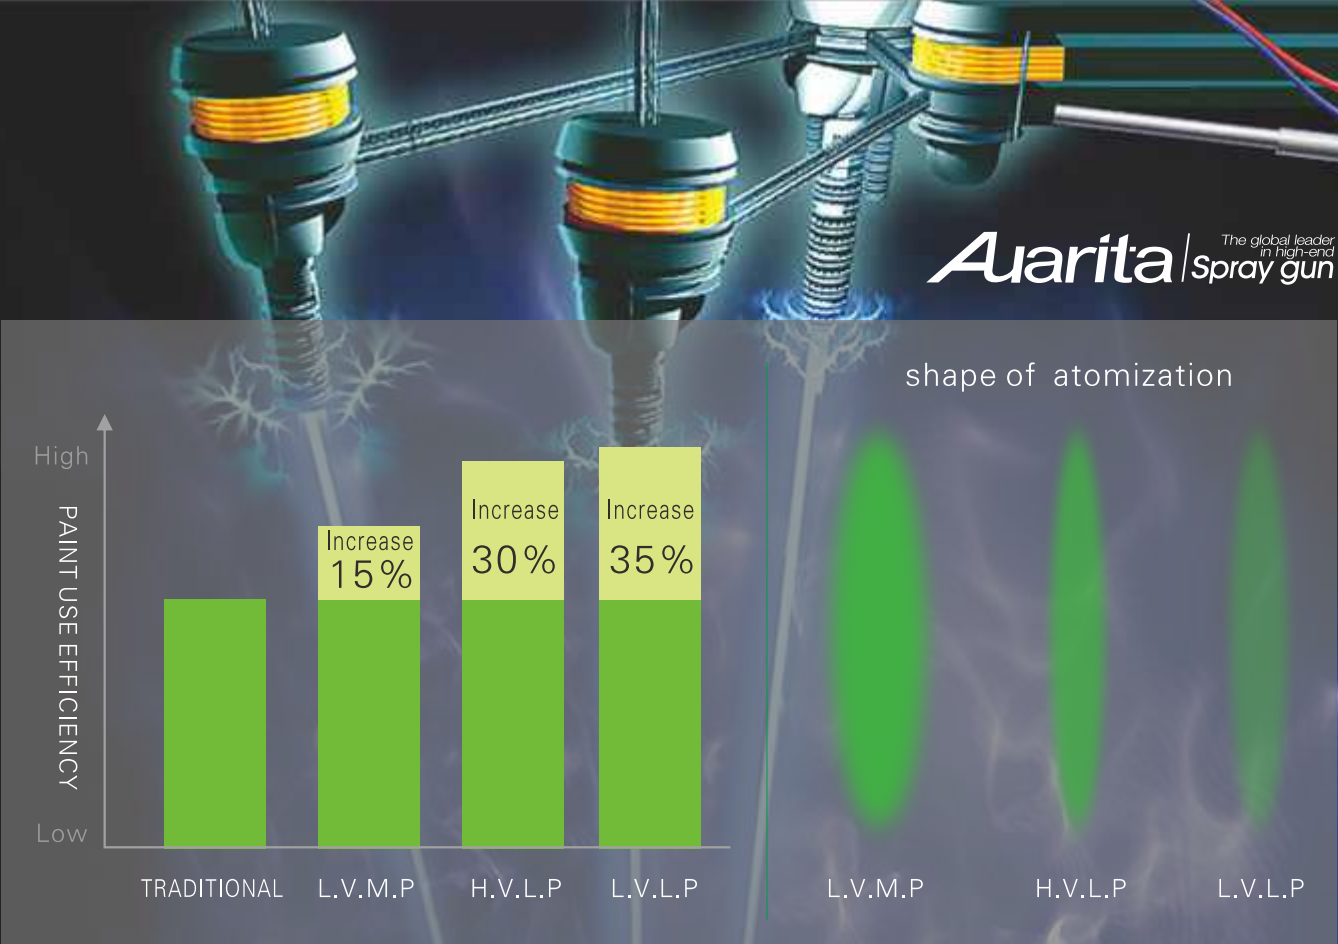

Processing equipment for precision parts

Automatic cleaning equipment

Spray gun atomization test laboratory

THE CONSISTENT ATOMIZING PERFORMANCE FOR 360 DEGREE.

The precision of air cap and nozzle holes determines the atomizing performance.

LASER DRILLING

Proprietary technique of high frequency lasering makes the accurate holes and durable perfect atomizing performance.

2L paint tank with high pressure spray gun
Paint tank with air regulator and ring-pull safety valve, with 2 meters of air and fluid hoses.
Optimal pressure: 22~43psi
Maximum pressure: 50psi
Capacity: 2L
PT-2

8L paint tank with high pressure spray gun
Paint tank with air regulator and ring-pull safety valve, with 3 meters of air and fluid hoses.
Optimal pressure:22~43psi
Maximum pressure: 80psi
Capacity: 8L
PT-8

Apply to manufacturers of cars and buses (large quantities of paint job).Suitable for clear paint and base paint
