

CQAM2 Shunt Release

◆ Overview and applications

MX shunt tripping device is mainly used for AC 50Hz, rated voltage 230V line and CQB2 series circuit breaker equipped with long distance shunt tripping operation.

◆ Type designation

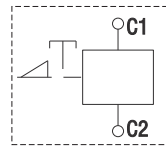

◆ Technical data

Specifications		
AC-15	Rated voltage	AC230V 50HZ
	Rated insulation voltage (Ui)	415V
Operation property	When the voltage is 160-260v, the release can operate reliably	
Mechanical life	4000	
Standards	GB 14048.5、IEC 60947-5-1	

◆ Conductor requirements and cross sections

Copper nominal cross-section(mm ²)
φ0.1X15 Plastic coated tin wire

◆ Wiring Diagram

◆ Order Specifications

- When ordering a shunt trip, the following points should be specified:
 - A) Product models, such as CQAM2;
 - B) Order quantity, such as 100 pcs
- Purchase order template
CQAM2 100pcs

◆ Dimensions(unit:mm)
